

2nd CALL FOR ABSTRACTS

Uniformed Services Environmental Health Association

Presentations in conjunction with the National Environmental Health Association's
2017 Annual Education Conference, JULY 10 - 13, 2017 - GRAND RAPIDS, MI

SUBMISSION DEADLINE: 15 April 2017; also see NEHA AEC submission website (below)

NOTE: Please insure that service/organizational clearances and approvals are obtained prior to submitting an abstract

The Uniformed Services Environmental Health Association (USEHA) proudly announces its annual **Technical Educational Program** and **Business Meeting** to be held at the NEHA Annual Educational Program & Exhibition in Grand Rapids, MI (see: www.neha.org/aec). USEHA is seeking presentations that address the latest advances and concerns in the unique area of environmental/public health that are associated with the uniformed services. The areas of interest cover the broad spectrum of environmental health disciplines to include, but not limited to: base, post, and installation activities; field and line activities; research and development initiatives; deployments; and other related areas.

“Excellent. I had been told this was going to be interesting and provocative. It did not disappoint.”
(Tucson, AZ USEHA Educational Program)

“Highlighted challenges that Environmental Health Officers face in the field”
(Tucson, AZ USEHA Educational Program)

The technical presentations are designed to educate and inform people with an interest or career in environmental/public health, to include those related to Force Health Protection, to build contacts, exchange information, and discover new and practical solutions to environmental health issues. Practical applications in the uniformed services will be emphasized along with the latest in proven emerging technologies. Recent research activities in the realm of the environmental/public health arena are also of interest.

USEHA's purpose is to promote the highest degree of skill, efficiency, and professional competency among all environmental health personnel serving in the Uniformed Services of the United States. We also seek to provide for a mutual exchange of knowledge and experience between members of the different Uniformed Services. USEHA educational sessions focus on environmental health issues that affect individuals served by or working within the uniformed services to include the National Oceanic and Atmospheric Administration, U.S. Air Force, U.S. Army, U.S. Navy, U.S. Coast Guard, U.S. Marine Corps, and U.S. Public Health Service. See <http://www.useha.org/> for additional information.
